# my **AIRGATE IoT Platform**

AIRGATE is a one-stop-shop strategic system integrator offering a broad portfolio of standard and customized industrial IoT services. AIRGATE makes it easy and secure to develop and deploy IoT solutions end-2-end in a scalable way, helping industrial companies all the way from identifying the IoT potential to implementation of the IoT solution. AIRGATE provide IoT solutions that, ensure predictable maintenance of industrial assets, reduce downtime in production, optimize processes and workflows as well as support development of new revenues streams.

AIRGATE offers a scalable and secure IoT management platform for collection, analyzing and visualization of data from industrial IoT assets. The myAIRGATE IoT platform fulfill the Industry 4.0 needs as a cloud based solution that addresses current constraints compared to the major IoT cloud solutions in terms of provisioning, security and adaptability. The platform comes with an easy to use front-end for presentation of raw data. Standard dashboards are easily customized and integrated on top for any business needs.

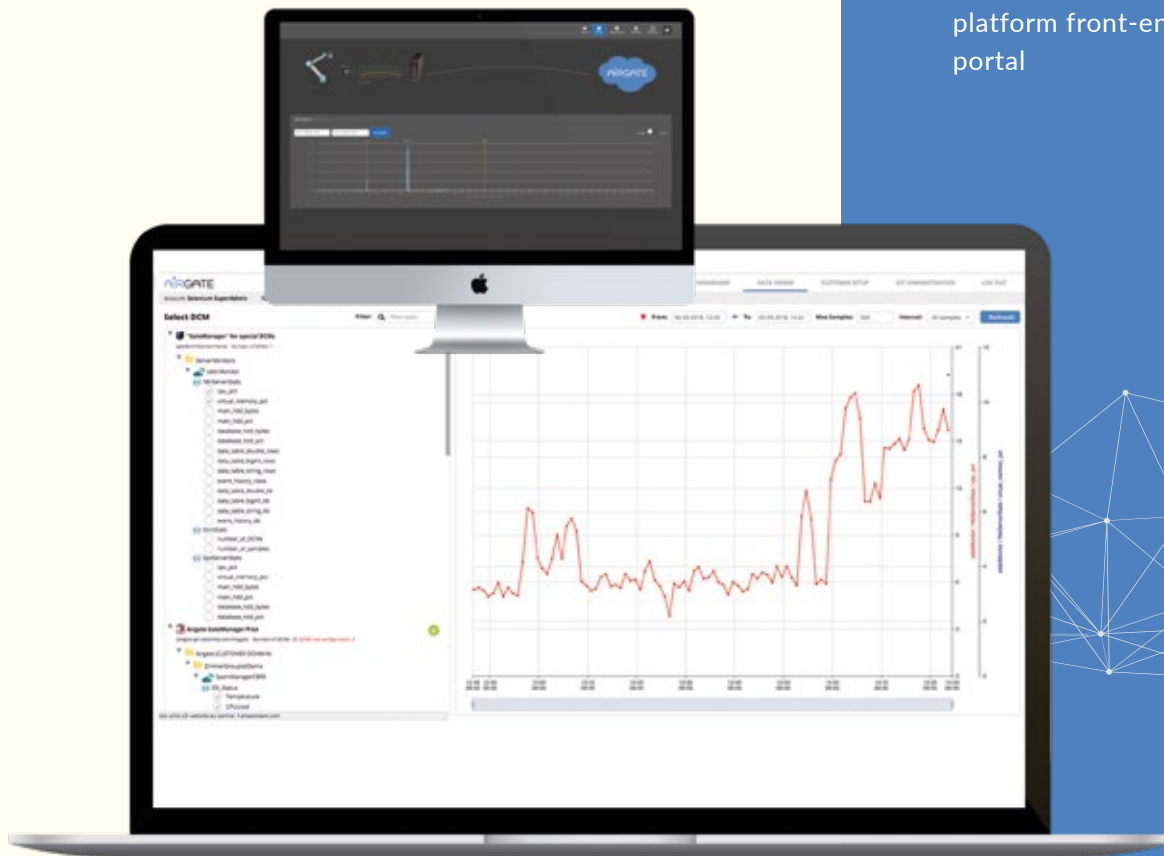

What we are proud of

# Benefits & Features

myAIRGATE IoT platform makes it simple to connect industrial assets to the Internet in order to monitor, collect, process (machine learning) and visualize data from sensors and devices as well as remote control of the assets. With myAIRGATE IoT platform Overall Equipment Effectiveness (OEE) and production quality can be quickly achievable.

## UNIQUE BENEFITS WITH AIRGATE IOT PLATFORM

1. One-stop-shop IoT platform for fast deployment of any IoT solution
2. Get uninterrupted visualization of your data with the Store-and-Forward feature
3. Integrated with Secomea SiteManager gateways, which offer you the most secure remote access on the market
4. Easy integration with myAIRGATE IoT Connectivity solution (2G/3G/4G/NB-IoT solution)
5. Branding and customization of the platform front-end and dashboard portal
